# Steps to Install Security Certificate in Firefox Browser
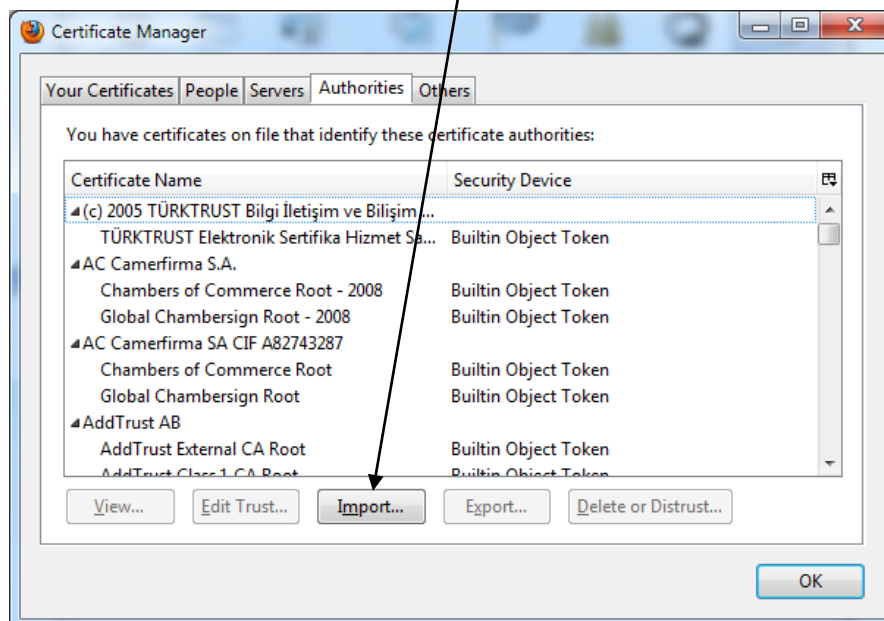

Follow the same procedure for both the certificates

1. Select from Menu:
   a. Tools -→ Options
   b. In Options Box Select Advanced Tab

Then Click on the View Certificates Button
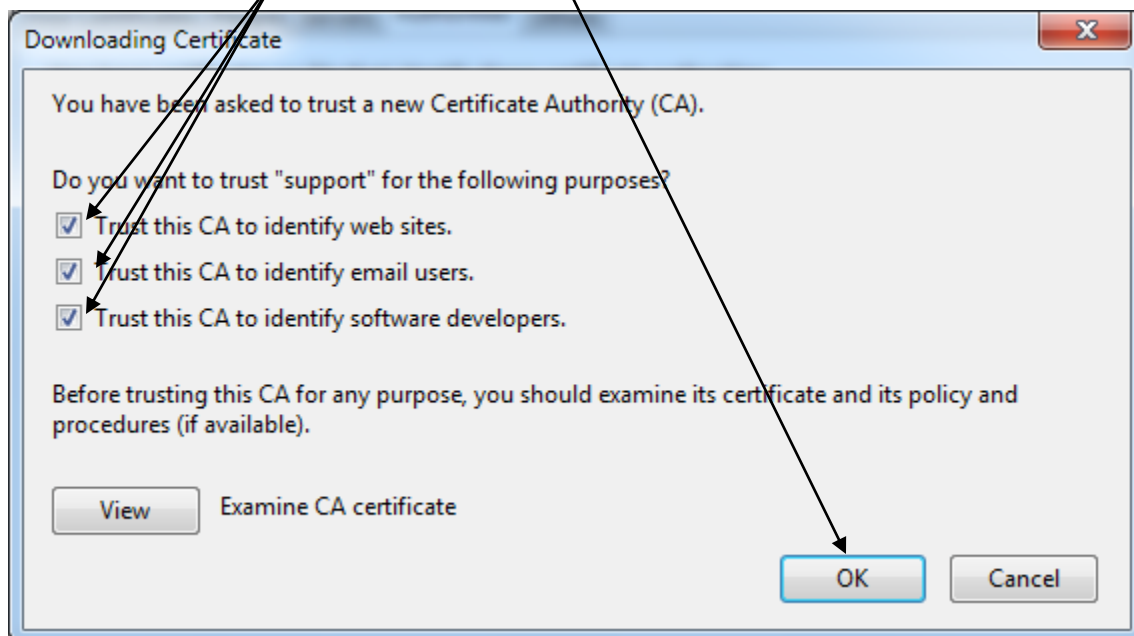

Then click on Import Button

Then select the <mark>certificate</mark> file & click <mark>Open</mark> Button

Select File containing CA certificate(s) to import

Open   Cancel

Then Select <mark>all the Options</mark> as below & click <mark>OK</mark>

Downloading Certificate

You have been asked to trust a new Certificate Authority (CA).

Do you want to trust "support" for the following purposes?

☑ Trust this CA to identify web sites.

☑ Trust this CA to identify email users.

☑ Trust this CA to identify software developers.

Before trusting this CA for any purpose, you should examine its certificate and its policy and procedures (if available).

View   Examine CA certificate

OK   Cancel

Do the same procedure for the next certificate
