

**Completed Project/Scheme**

<b>Sr. No.</b>	<b>Name of Project/Scheme</b>	<b>Budget Head</b>	<b>Funding Agency</b>	<b>Starting Year/Date</b>	<b>Completion Year/Date</b>
1	Microbial bioformulation: Sustainable utilization approaches for cotton plant health management	18559-62	Better Cotton Initiative	2023	2024
2	Creation of mass production facility of bio-pesticides for plant disease management	18557-95	Organic Farming Cell, Director of Agriculture, Gandhinagar	2019	2021
3	Establishment of mass production laboratory of native biocontrol agents for insect pest management	18557-75	RKVY	2018	2020
4	bioefficacy of <i>Metarrhizium anisopliae</i> based bio-insecticide, Met52 EC for control of sucking pest complex in chilli	18447-05	Other agency	2012	2014
5	Bio-efficacy OF <i>Metarrhizium anisopliae</i> based bio-insecticide, Met52 EC for control of sucking pest complex in brinjal	18447-06	Other agency	2012	2014
6	Testing the bio-efficacy of JumpStart in Soybean	18447-08	Other agency	2012	2014
7	Testing the bio-efficacy Optimize 400 in Soybean				
8	Testing the bio-efficacy Taegro in Soybean				
9	Evaluation of "Athlet" and "Langdu" as biopesticides for their efficacy against pest complex of okra	18447-04	Other agency	2011	2012
10	Establishment of laboratory for mass production of bio agents and its demonstration for sustainable and economical returns in horticulture crops	18355-01	National Horticulture Mission	2010	2010
