

## **Educational Visit of Jamali English Medium School to Polytechnic in Agricultural Engineering, Dahod**

The students of Class 9 of Jamali English Medium School, Dahod participated in an educational exposure visit to the Polytechnic in Agricultural Engineering, Dahod, functioning under Anand Agricultural University.

The visit was organized with the objective of providing practical exposure and career guidance in the field of agricultural education and engineering. The students were warmly welcomed at the campus by Dr. F. G. Sayyad, Principal of the Polytechnic in Agricultural Engineering, Dahod.

During the session, Dr. Sayyad delivered an informative lecture explaining the history and development of agricultural education in Gujarat. He elaborated on the academic, research, and extension activities carried out by Anand Agricultural University for the development of farmers and rural communities. He emphasized the role of agricultural engineering in modern farming practices and sustainable agriculture.

Dr. Sayyad also guided the students about the admission process for diploma and degree courses offered by AAU. He explained eligibility criteria, application procedures, and various career opportunities available after completing agricultural and engineering programs.

As part of the exposure visit, the Class 9 students toured different laboratories of the Polytechnic, where they observed practical demonstrations of agricultural machinery, irrigation systems, soil and water conservation equipment, and other modern farm technologies. Faculty members explained the working principles and real-world applications of the equipment, making the visit highly informative and engaging.

The visit concluded with an interactive session, where students actively participated and clarified their doubts regarding higher education and career prospects in agriculture. The educational tour proved to be an inspiring and knowledge-enhancing experience for the young learners.
