

Online Webinar on “Scope of Renewable Energy in India”
Organized by Knowledge Consortium of Gujarat (KCG), Gandhinagar, Gujarat

Online Webinar on “**Scope of Renewable Energy in India**” was successfully coordinated online mode by the Department of Renewable Energy Engineering, College of Agricultural University, Godhra, on 29th January, 2026. The program was organized and conducted under TEERTH (Training and Empowerment for Enhancement of Research and Technical Height) Yojana is an initiative by the Knowledge Consortium of Gujarat (KCG), Government of Gujarat, Gandhinagar and featured technical experts **Dr. Jignesh B. Shah**, Atmiya University, Rajkot. The key aspects of KCG TEERTH Prakalp are to empower educators and students with up-to-date knowledge and professional certifications, enhancing the quality of higher education in Gujarat and raining programs often cover advanced areas like Project Management (e.g., PRINCE2 Foundation and Practitioner levels). The webinar saw enthusiastic participation from approximately 90 students, including B.Tech second-year, third-year, and first year M. Tech. Agricultural Engineering (REE Department) students. The webinar was coordinated by Dr. D. K. Vyas and Dr. J. Sravankumar, Department of Renewable Energy engineering, CAET, AAU, Godhra. The webinar emphasized the critical need for renewable energy importance and its utilization in different sectors like domestic, agriculture as well as industrial sectors and its conservation practices.

The webinar covered a wide range of topics, including:

- Fundamentals of renewable energy sources and its utilization.
- Practical strategies for increasing the energy consumption through renewable sources in residential, commercial, and industrial sectors.
- Role of renewable energy technologies in energy conservation.
- Energy auditing techniques and tools for identifying energy-saving opportunities.
- Government policies and incentives promoting energy efficiency and conservation.
