

## Organized “Awareness cum Thalassemia Test” at College of Agricultural Information Technology, AAU, Anand

The Thalassemia and structural hemoglobin variants are the most common monogenic disorders globally. Thalassemia is an incurable disease. Only awareness may help us protect ourselves from society's curse. Therefore under the National service scheme of College of Agricultural Information Technology, AAU, Anand organized an awareness cum thalassemia test in association with the Indian Red Cross society, Ahmadabad on 30<sup>th</sup> November 2024. In this event Alpeshbhai Patel, camp co-ordinator gave information about thalassemia (minor and major), its consequences and encouraged students for Thalassemia testing. The camp was successful to complete 154 participants of different age groups being tested. The programme was framed by NSS programme Officer Dr. Kiran Chandravadia under the guidance of Dr. Y.R. Ghodasara, Principal & Dean, CAIT, Anand.
