PLACEMENT BROCHURE 2026

B. Tech. (Food Technology) M. Tech. (Food Technology)

Dean's Message

The Indian food industry is positioned for significant expansion, augmenting its share of global food commerce annually. The food sector in India has developed into a high-growth and high-profit industry, owing to its significant potential for value addition, especially in the food processing sector.

The developing Indian and global scenario concerning ethnic trends, product quality, safety, and hygiene is expanding opportunities for food technologists. Under the supervision of a multidisciplinary team of highly experienced faculty members, final-year students of this year's class are trained not only in knowledge and skills but also to become effective professional food technologists. In addition to standard theoretical classes and specialized lectures on recent advancements in the global food processing business, students received exposure to advanced laboratory and pilot plant facilities, including the Experiential Learning Unit.

Industries are welcome to interview and hire our final-year students for their prestigious companies. I am assured that our graduates and postgraduates will uphold exemplary standards of professionalism and meet employer expectations regardless of their placement. I sincerely wish them a successful and flourishing career in the future.

College at a glance

Aptly recognised as the 'sunrise industry', providing vital linkages between the two pillars of our economy – manufacturing and agriculture – the Food Processing industry in India is undergoing a significant transformation. Though low levels of processing and market share in the global arena suggest an untapped opportunity to capitalise on India's enormous raw material base and propel exports, they also indicate few critical challenges to be trounced to sustain continual growth of the industry. The manufacturing of food products of consistent quality and nutritional value at affordable cost is essential to the success of the food industry. The efficient use of resources is the growing concern for all involved in food production, processing, distribution and retailing. The food industry in the country is poised for modernization, which necessitates special attention towards availability of qualified technical manpower. Considering the huge demand of the specialized human resource for the fast growing sectors of food industry, the Anand Agricultural University has established a full-fledged College of Food Processing Technology & Bio-Energy.

College offers B. Tech, M. Tech & Ph. D. programmes in the discipline of Food Technology. Academic campus of the College of Food Processing Technology & Bio Energy is established on a total land area of 4.19 hectares, with seven modern classrooms with audio visual facilities, thirty well equipped laboratories, ten experiential learning units, a special state-of-art NABL accredited Food Quality Testing Laboratory and a unique Incubation-cum-

Vision

Providing excellent food processing professionals to the industry.

Mision

The primary mission of the college is to produce highly skilled, competent and motivated technical manpower for food processing and allied industries. The technocrats so produced will also be competent to handle all the aspects of Government Departments, research institutes, quality testing laboratories and other related agencies. Also, the college is concerned with the exploitation of novel techniques and technologies to maximize the use of food resources.

Goal

The goal of the college is to promote the integration of teaching, research and extension in the area of food processing and bio energy by serving as a premier educational and research institute in the State of Gujarat and in India.

Department & Staff

Principal & Dean
Dr. Samit Dutta, Ph.D.

Department of Food Processing Technology

Dr. H. Pandey, Ph.D., Professor & Head

Dr. D. B. Patel, Ph.D., Assistant Professor
Dr. Jerul Halpati, Ph.D., Assistant Professor
Ms. Payal Patel, M.B.A., Assistant Professor

Department of Food Plant Operations

Dr. S. H. Akbari, Ph.D., Professor & Head
Dr. A. V. Ravani, Ph.D., Associate Professor
Dr. K. R. Jethva, Ph.D., Associate Professor
Dr. Ulpa Patel, Ph.D., Assistant Professor
Dr. J. P. Rathod, Ph.D., Sr. Research Assistant

Laboratories

The college has excellent laboratory facilities, which offer practical learning opportunities for students. All the following laboratories are equipped with experimental tutors, sophisticated processing and analytical instruments which enable the students to get practical knowledge of subjects taught.

- Primary processing lab
- Grain milling lab
- Storage engineering lab
- Engineering properties lab
- Food processing technology lab
- Food product development lab
- Dairy products lab
- Packaging technology lab
- Sensory lab
- Food rheology lab
- Advance food technology lab
- Animal products lab
- Food chemistry lab
- Food microbiology lab
- Food biotechnology lab
- Food quality assurance lab
- Mechanical engineering lab (workshop)
- Fluid mechanics & material lab
- Electrical engineering lab
- Electronics & process control lab
- Civil engineering lab
- Heat & mass transfer lab
- Food irradiation research lab
- Advance food engineering lab
- Biochemical conversion lab
- Biomass gasification lab
- Solar & wind energy lab
- Environment engineering lab
- Computer Lab
- Language Lab

Food Quality Testing Laboratory

A special NABL accredited state-of-art Food Quality Testing Laboratory, established by Ministry of Food Processing Industries, Government of India has all the sophisticated high-end analytical facilities of international standard.

Commercial testing of food samples are carried out in the laboratory for the various parameters besides using it for higher level research.

Experiential Learning Units

Various experiential learning units of pilot scale processing lines have been installed in the college for hands on experience and in-plant exposure to the students. These units are also used to provide training to food industry personnel and unemployed youth. The pilot plant facility is also utilized for testing new technologies and test manufacturing of new food products. Experiential learning with following pilot plants are available :

- Fresh fruits & vegetables pack house
- Fruits & vegetables canning line
- Beverages bottling line
- Bakery & snacks processing line
- Health food processing line
- Individual Quick Freezing (IQF) line
- Food dehydration line
- Experimental pulse mill
- Experimental biodiesel plant
- Bio energy park

Incubation-Cum Center of Excellence in Food Processing

The college has an unique Incubation-cum-Center of Excellence in food processing equipped with the modern, latest and sophisticated equipment, instruments, set-ups to facilitate world class research.

The facilities include gamma irradiation unit, cryogenic grinding unit, super-critical fluid extraction system, heat pump drying, microwave vacuum drying, solar hybrid refrigeration system and others.

Course curriculum - B. Tech (FT)

Food Processing Technology

- Fundamentals of Food Processing
- Processing Technology of Liquid Milk
- Processing Technology of Cereals
- Unit Operations in Food Processing
- Processing Technology of Dairy Products
- Processing Technology of Legumes and Oilseeds
- Processing of Spices and Plantation Crops
- Design & Formulation of Foods
- Processing Technology of Fruits and Vegetables
- Bakery Confectionery and Snack Products
- Processing of Meat, Fish & Poultry Products
- Processing Technology of Beverages
- Sensory Evaluation of Food Products
- Food Packaging Technology and Equipment

Food Quality Assurance

- General Microbiology
- Food Chemistry of Macronutrients
- Food Microbiology
- Food Chemistry of Micronutrients
- Food Biochemistry and Nutrition
- Industrial Microbiology
- Food Biotechnology
- Food Plant Sanitation
- Instrumental Techniques in Food Analysis
- Food Additives and Preservatives
- Food Quality, Safety Standards and Certification

Food Engineering

- Basic Electrical Engineering
- Workshop Technology
- Engineering Drawing and Graphics
- Food Thermodynamics
- Fluid Mechanics
- Post-Harvest Engineering
- Basic Electronics Engineering
- Heat and Mass Transfer in Food Processing
- Food Refrigeration and Cold Chain Fundamentals of Food Engineering
- Food Plant Utilities & Services
- Food Storage Engineering
- Food Process Equipment Design
- Food Storage Engineering
- Food Process Equipment Design

Food Business Management

- Computer Programming and Data Structures
- Business Management and Economics
- ICT Applications in Food
- Marketing Management and International Trade
- Entrepreneurship Development
- Communication and Soft Skills Development
- Project Preparation and Management

Experiential Learning

- Student READY - Experiential Learning Programme – I
- Student READY - Experiential Learning Programme – II
- Student READY - Research
- Student READY – Seminar
- Student READY - Experiential Learning Programme – I
- Student READY - Experiential Learning Programme – II

Experiential Learning

- Engineering Mathematics-I
- Engineering Mathematics-II
- Environmental Sciences & Disaster Management

FPT

- Emerging Technologies in Food Processing • Emerging Technologies in Food Packaging
- Industrial Manufacturing of Food and Beverages • Food Material and Product Properties
- Traditional Foods • Technologies of Convenience Foods

FPE

- Emerging Food Engineering Operations • Computer Aided Design of Food Plant Machinery and Equipment
- Engineering Properties of Food Materials • Transport phenomenon • Process control in food industries

FSQA

- Technologies in Food Quality Analysis* • Microbiology of food spoilage and pathogens*
- Advanced Food Chemistry • Global Food Laws and Regulations • Quality Concept and Chain Traceability
- Fundamentals of microbial controls in foods • Advances in food biotechnology

Minor Courses

- From the major courses from other two disciplines

Supporting Courses

- Operation research • Post-Harvest Management • Special problem/summer internship
- Seminar • Master Research (Thesis)

Compulsory Courses

- Library and Information Services • Technical Writing and Communications Skills
- Intellectual Property and its Management in Agriculture • Basic Concepts in Laboratory Techniques
- Agricultural Research, Research Ethics and Rural Development Programmes

Industry Partners for Training & Placement

A full-fledged training and placement cell exists in the college, which helps the students in deciding their choice of organization for training and job placement.

The Training & Placement cell of the college maintains live contacts with the industry and organizes 16 Weeks in-plant trainings for the final year undergraduate students, in reputed food processing and relevant industries.

College arranges in-plant training cum placement sessions for the benefit of both the students and the industries.

Students selected in such session continues their jobs in the same industry where they completes their in-plant training.

College also organizes campus interviews for the recruitment of the pass outs by inviting reputed food business houses.

Personality development programmes by professionals on how to write effective resumes, how to face interviews/group discussions, the role of body language and overall development of positive thinking and attitudes
